WHEREAS over 36,500 USA humans have died from COVID-19 9 vaccinations (reported www.openvaers.com) and or over 3.5 million working age Americans have been added to the disabled population, an increase of 6.6% over the historical average disability rate (US Bureau of Labor Statistics, cited by Dowd, Cause Unknown, p 116-117); and

WHEREAS government agencies, media and tech companies, and other corporations, have created and perpetuated enormous fraud by claiming Covid injections are safe and effective,

BE IT RESOLVED: the Parker County Republican Party calls upon Governor Abbott and the State Legislature to prepare to prohibit the sale and distribution of mRNA Covid injections to individuals in the state of Texas as overwhelming evidence is produced demonstrating direct correlation between these vaccines and high percentages of debilitating or deadly side effects; and

BE IT FURTHER RESOLVED that, upon confirmation that concerns related to the efficacy and safety of specific COVID-19 vaccines are valid and therefore a real threat to Texas citizens, the Texas Governor and Legislature will take action to ban the application, use and distribution of those products in the State of Texas.
